

E.F. SAN JUAN

GENERATIONS OF *Quality* CRAFTSMANSHIP

— EFSANJUAN.COM —

CREATED BY NATURE.
CRAFTED BY US.

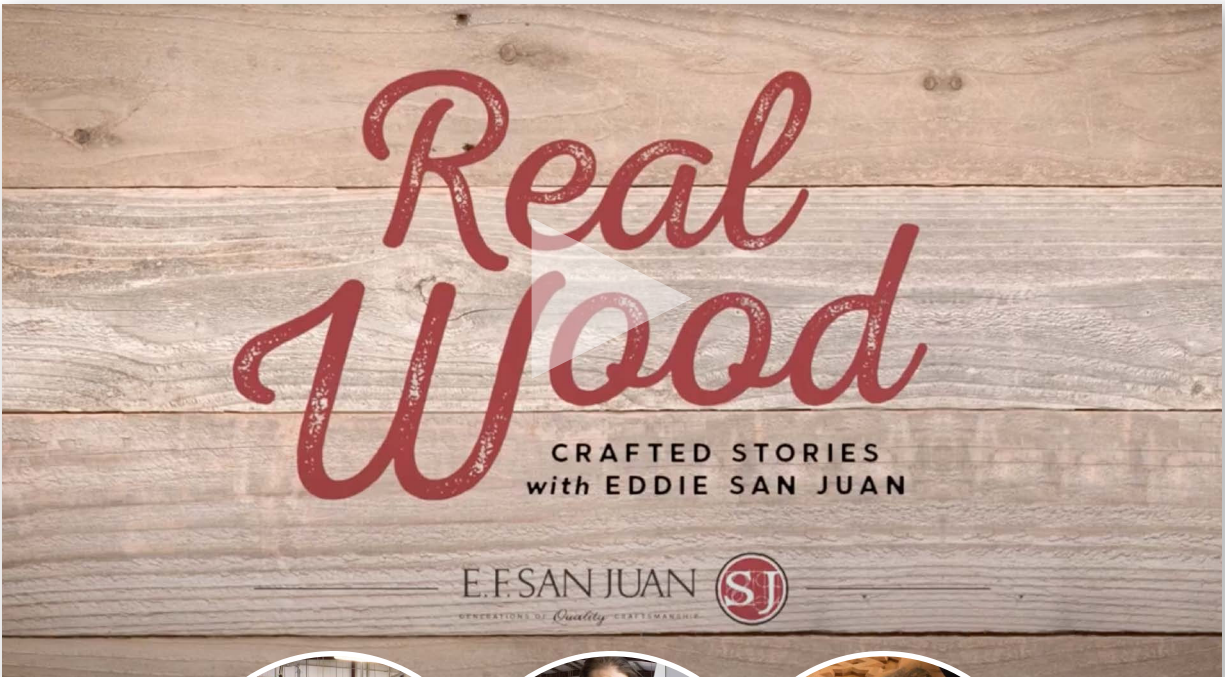

E. F. SAN JUAN is a third-generation architectural moulding, millwork, and cabinetry manufacturer in Youngstown, Florida. It was founded in 1976 by Edward “Ed” F. San Juan as a sawmill with basic equipment and has since evolved into a bustling campus of facilities combining state-of-the-art technology with the old-world woodworking techniques that Ed learned from his father, who had a small cabinetry shop in Miami. Ed’s son, Edward A. San Juan, officially joined the business in the 1980s, and the pair began creating custom wood products for architects and contractors throughout the luxury coastal communities of Florida and beyond. They apply old-world techniques with new-age technology to create custom wood pieces for new-build homes and commercial projects as well as restorations and historical landmarks.

A true family business, E. F. San Juan’s team now includes various San Juan siblings, grandchildren, and in-laws, and many of the firm’s employees have brought on family members, as well. The camaraderie and professionalism shine through each layer of the company, from the production team to administration and sales. Running an efficient manufacturing plant with the highest-quality wood products and maintaining a positive, energetic work environment are top priorities for the E. F. San Juan leadership team. This effort is evident in every piece of handcrafted millwork the company produces and delivers with pride.

OUR FACILITIES

KEY to the E. F. San Juan's ability to produce the highest quality moulding and millwork is an investment in state-of-the-art woodworking equipment. CNC routers, moulders, shapers, and a variety of specialty machines produced by the world's premier woodworking equipment manufacturers fill our production floor. Continuous investment in the latest technology gives our team the tools needed to provide our discriminating clients with the best products for unique and challenging architectural projects. Our cabinetry shop opened in 2019 and now allows our clients access to premier custom cabinetry produced with the professionalism and craftsmanship of the E. F. San Juan team.
